

The Magic of Rotary

It's The 4th Quarter

By Gordon Owens

As we enter the 4th quarter of the Rotary year, there is still plenty of work to do. Our district is leading the way in Annual Fund and Polio Plus giving, but neighboring districts are nipping at our heals. While our generosity knows no bounds, we are currently predicted to end the year with a few less members in our district than we started the year with. Imaging the impact we could have in our communities and around the world with a few more helping hands in each of our clubs. Even though district conference is when we recognize much of the hard work during this Rotary year, we still have 3 months left to help those in need with service, ask for donations to support our foundation and invite someone with a servants heart to join our team. Let's finish the year strong! [more]

Our Rotary Foundation at Work

Be Inspired by What Our TRF Contributions Can Do

by Bob Hagan, District Foundation Chair

By Bob Hagan

When the District Newsletter reminder note came to me this month, I must admit it truly did inspire me to look at what I wanted to communicate to you all this month a little differently than in past months. So often, and rightly so, I will talk about dollars. Dollars given and dollars in turn placed back out in our Rotary communities. All are great topics that should constantly be placed before us. However, this month the reminder stated, “We love to hear about the ways you are serving your communities and world…” It got me thinking and really looking for stories that complement the request made to us this month. Low and behold, the story I decided to share with you all this month simply fell in my lap. It came from my good friend Club President Rick Clark of the Rotary Club of North Fulton. I’ve had the opportunity and blessing of getting to work with Rick, his dear wife Tina and the Rotary Club of North Fulton for a good long time now. This was a project that was funded by the District 6900 Competitive Grant awarded in the Fall of 2024. This is truly a life-giving project, two of his members, Steve Cory and Marc Gelber, have been working on for some time partnering with the North Fulton Fire Departments. [more]

The Rotary Club of Columbus recently completed a meaningful Community Grant Project by providing two benches for the tennis courts at Micah’s Promise. A dedication ceremony was held on March 17th to commemorate the occasion.

Their mission—to "act justly, love mercy, and walk humbly"—guides their efforts to educate the community on the risks and prevention of DMST while providing a supportive environment for the transformational life-change of survivors.

End Polio Now

Why Our Polio Eradication Support is So Important

by Bob Hagan, District Foundation Chair

By Bob Hagan

What is the #1 initiative of Rotary International? ERADICATE POLIO! This brings me to two topics I want to touch on this month. One is a bit concerning and the other quite uplifting. Let me start with the one that is a bit concerning. I was sent an article for review last month that was published in the “Medscape Medical News” and was written by Annie Lennon that talks about the vaccine-derived poliovirus type 2 was found in the wastewater systems in five European countries. The second story was about renewed vaccination efforts in parts of Pakistan. Both underscore the need for our continued support of End Polio Now. [more]

30 Years of Recovery

A Warrior’s Path – One Step at a Time

By Kirk Driskell

On April 24, 2024, I will take the first step of a journey that has been 30 years in the making. It marks the exact date I took my last drink and drug in 1995—and this spring, I’ll celebrate that milestone by walking 300 miles over 30 days along the Benton MacKaye Trail in an effort we’re calling **A Warrior’s Path**.

This isn’t just a hike. It’s a visual metaphor for recovery, redemption, and resilience. As many of you know, I’ve shared openly about my personal battle with addiction and the grace that brought me out of it. But this trail is about more than my story—it's about walking on behalf of the men still struggling in silence, the ones still waiting for someone to believe in them, and the communities that desperately need hope and healing. This is about proving that recovery is possible, transformation is real, and no warrior walks alone. [more]
